

# MEDSPA ELYSIUM

## DERMAL THERAPIES

### Skin Consultation & Analysis (30 mins)

**Complimentary with any facial treatment for first-time clients**

The skin is much more complex than what can be seen with the naked eye – that's why we use the Observ 520 for professional skin analysis. With advanced analysis technology we can view blemishes, fine lines, dryness and uneven skin tone in depth. This allows us to better understand your unique skin concerns to treat existing imperfections, and even address underlying concerns before they become visible.

### Essential Balance Facial (45 mins) \$120

A universal treatment appropriate for all skin types and conditions. This revitalising treatment assists in boosting hydration, radiance and overall appearance of skin.

### MicroHydrabrasion

**Express (30 mins) \$90**

Perfect for those who lack time but want to see results. Targeting skin congestion, premature ageing and uneven skin-tones.

### Performance (60 mins) \$160

This result-driven facial combines the power of both hydration (micro hydrabrasion) and skin resurfacing (peel) to improve skin tone, texture and overall appearance. This targets all signs of ageing, pigmentation, dehydration skin, congestion and dull skin tones.

### Micro Needling (75 mins) \$299

Micro Needling works by stimulating your own body's collagen. Your body will start to naturally regenerate the skin, working below the surface in the dermis. New skin cells are generated & blood supply is enhanced. It will only take up to 6 weeks before visible signs of regeneration are seen & the process will continue over the following months, providing you with a gradual & long-lasting enhancement.

### LightStim LED Light Therapy (30 mins)

**30 minutes \$69 or add on to another treatment for \$30**

LightStim's patented LED Light Therapy is the most effective, clinically-proven technology for achieving healthy and youthful skin. It is soothing, non-invasive, and can be used on all skin types. LightStim LED light therapy delivers light energy to skin in a similar way to plants absorbing light energy from the sun. LightStim emits UV-free, beneficial light rays that energise cells and stimulate the body's natural process to build new proteins and regenerate cells. This helps to increase collagen and elastin production, reduce inflammation, speed healing, increase circulation, and destroy acne bacteria. Perfect for treating a wide range of skin conditions such as acne, sun damage and aging.

### Dermaplaning (45 mins) \$130

Dermaplaning is a gentle method of exfoliating the skin. A surgical blade is worked over the face removing dead skin cells from the surface of the skin, as well as any fine vellus hair. Any fine hair removed during the treatment will not be stimulated or grow coarse. This treatment is ideal for blonde hair that cannot be treated by laser, sensitive skin not suitable for microdermabrasion, and a smoother makeup application.

### Plasmedic Skin Tightening

**Price and treatment time varies depending on area being treated. Consultation essential.**

The Plasmedic device creates a voltage difference between the device and skin resulting in a small millimetre size carbon spot where the excess skin has been evaporated. Using our reduction grid method and the formation of new Collagen and Elastin the skin becomes tighter, lifted and wrinkles smoothed out and reduced. Areas that can be treated include under and upper eyelid, crows feet, frown lines, forehead, cheeks, upper lip, nasolabial folds, jawline, turkey neck and more.

### Carbon Facial (60 mins) \$150

The Carbon Facial, also known as 'China Doll Peel', gives you glowing skin after just one treatment. If you're looking for a quick, quality skin rejuvenation with no downtime and immediate result, this treatment is for you. The Carbon Facial can treat acne and blackheads, while also reducing the appearance of enlarged pores and acne scarring. You can expect instant and cumulative results with each treatment.

### Photo Rejuvenation

**Price and treatment time varies. Consultation essential.**

Photo Rejuvenation uses specific wavelengths of light that target and penetrate the deep layers of the skin. This treatment is designed to target pigmentation, fine lines and wrinkles, sun damaged skin, dilated capillaries, redness, and rosacea. The process works by using accurately targeted light energy to safely treat visible blood vessels or pigmentation.

## PEELS

### Cosmelan POA. Consultation essential.

The Cosmelan program consists of a professional in-clinic treatment and includes your ongoing at-home skin care routine. Cosmelan is a depigmenting treatment designed to eliminate or reduce dark spots of melanic origin on skin, while unifying the skin tone and enhancing skin luminosity.

### C-Infusion (45 minutes) \$99

C Infusion Peel increases cellular turnover to repair UV damage while polishing and hydrating uneven skin texture and tone. Appropriate for dull, sallow, ageing or pigmented skin.

### Power Pumpkin (45 minutes) \$99

Power Pumpkin Resurfacer works to decrease active acne lesions while helping to prevent new acne formation while evening skin tone by lightening unwanted pigmentation. This treatment is ideal for thickened, resistant breakout-prone skin.

### Power Peptide (45 minutes) \$99

Power Peptide Resurfacer decreases wrinkle depth and lifts lines, provides an instant lift to the skin with increased firmness while providing a deep exfoliation for a smoother, firmer complexion. Perfect for clients concerned with lines and wrinkles, or clients needing a pre-event boost for their skin.

### Mangobrite (45 minutes) \$99

MangoBrite Resurfacer improves skin brightness, refine the appearance of fine lines and wrinkles to combat stubborn pigmentation. Known as the 'party peel', this treatment provides an instant glow.

### Power Peptide Resurfacer (45 minutes) \$99

Boasting blend of AHA's, this resurfacing treatment smooths texture and plumps appearance for a more youthful looking complexion. It improves fine lines and wrinkles & Plumps skin leaving a radiant glow.

## COSMETIC TATTOOING

### Microblading (allow 90 mins) consult essential \$590

The feather hair stroke is the latest hair-simulation technique for beautifully natural-looking eyebrows. Delicate individual hairs which mimic real brow hairs are meticulously crafted and woven together in the direction of your natural brow hair, creating a softly feathered effect. The result is beautifully natural, on-trend eyebrows that are totally flattering to the whole face.

### Powder Brows (allow 90 mins) consult essential \$690

If you are someone who prefers a fuller brow with a more defined 'makeup look', the powder brow mimics the appearance of natural brow make-up. Using a machine and permanent make-up techniques, pigments are shaded into the skin for a defined soft shape. Ideal for oily skin or sparse brows.

### Combination Brows (allow 90 mins) consult essential \$690

Combination brows involve using both the microblading and powder brows technique. Feather strokes towards the front of the brow are combined with shading and mimics the natural brow growth.

### Ombre Brows (allow 90 mins) consult essential \$690

Ombre brows involve using the powder brow technique with fading at the front of the brows. This creates a gradient effect in the brow from light to dark resulting in a soft but defined natural-looking brow.

### Tattoo Removal

**Price and treatment time varies. Consultation essential.**

We offer tattoo removal treatment for brow and body tattoos, via both laser and non-laser methods. The choice of method depends on the colour, age and area of the tattoo. The length and number of sessions required depend on your tattoo.

## OTHER SERVICES

### Relaxation & Hot Stone Massage

#### Relaxation

**(30 minutes) \$80 | (45 minutes) \$90  
(60 minutes) \$100 | (90 minutes) \$130**
